Education

| | |
|--|---|
| Higher education (2008) | Graduated from Poltava State Agrarian Academy, specialty "Veterinary Medicine", qualification Master of Veterinary Medicine |
| Candidate of veterinary sciences (PhD) (2019) | Dissertation topic "Pathomorphological features of pig escherichia with an excess of copper, iron and cobalt in feed" |

Educational activity

Educational components: Anatomy of animals, Pathological morphology and forensic veterinary medicine of animals

Scientific activity

Author and co-author of more than 30 scientific and educational and methodological works, including 20 articles in professional publications of Ukraine.

Participant of scientific international and all-Ukrainian conferences:

1. VI All-Ukrainian scientific and practical conference Scientific readings 2019. Modern approaches to ensuring animal health and the quality of fodder and food products November 14, 2019, Zhytomyr
2. International scientific and practical conference "Actual problems of epizootology and infectious diseases of animals". OSAU October 24-26, 2019.
3. VIII NATIONAL CONGRESS OF PATHOPHYSIOLOGISTS OF UKRAINE Pathological physiology - health care of Ukraine dedicated to the 120th anniversary of the Odesa pathophysiological school. May 13-15, 2020, Odesa.
4. International scientific conference "UNITED HEALTH - 2022" September 22-24, 2022, NUBiP of Ukraine, Kyiv
5. 1st International Scientific and Practical Conference "Actual Aspects of the Development of Science and Education" Odessa, April 13-14, 2021 OSAU
6. II International scientific and practical conference of scientific and pedagogical workers and young scientists "Actual aspects of the development of science and education" December 08-09, 2022, Odessa, OSAU
7. All-Ukrainian scientific and practical internet conference "Modern problems of veterinary medicine for surgical and obstetric pathologies" Odessa, December 7, 2022
8. International Scientific and Practical Conference of Scientific and Pedagogical Workers and Young

Scientists September 14-15, 2023

9. International science and practice conf. Current aspects of the development of veterinary medicine in the conditions of European integration: materials Odesa, 2023.

10. All-Ukrainian science and practice conf. Current issues of forensic veterinary examination: realities and prospects. Odesa, May 23–24, 2024.

Advanced training

1. Diploma of candidate of sciences in specialty 16.00.02 "Pathology, oncology and morphology of animals". Dissertation topic: "Pathomorphological features of pig escherichia due to an excess of copper, ferrum, and cobalt in feed." Diploma of candidate of veterinary sciences, DC No. 053950 dated October 15, 2019.

2. Podilsk State Agrarian and Technical University, educational and scientific center for retraining and advanced training, advanced training in the disciplines "Animal Anatomy", "Cytology, Histology, Embryology". Topic: "Study of the anatomical features of the structure of organs of the digestive, respiratory, circulatory and urinary systems in small animals." The term and scope of advanced training: 01.06.2021-16.07.2021, 180 hours. Certificate of advanced training SS 22769675/000917-21 dated September 14, 2021.

3. Dnipro State Agrarian and Economic University, Department of Animal Anatomy, Histology and Pathomorphology. Topic: "Pathological morphology and forensic veterinary medicine of animals." Term and scope of advanced training: 19.09.2022-18.11.2022, 180 hours. PC certificate 00493675/049112-22 dated November 18, 2022.

4. International Internship "Digital Future: Blended Learning", October 2, 2023 - November 30, 2023, TOTAL 180 hours, 6 ECTS credits. PC certificate DN 202311492. Issue date: 30.11.2023

5. Sumy State University. Topic of advanced training: "Organization of scientific work in an educational institution." The term and scope of advanced training: 04/23/2024-04/29/2024, TOTAL 30 hours, 1 ECTS. Certificate of professional development of SP No. 05408289/1356-24 dated April 29, 2024.

6. Scientific and pedagogical internship "The impact of European integration on the process of training agricultural specialists in higher education institutions of Ukraine", Wloclawek, Republic of Poland, July 29 - September 8, 2024. TOTAL 180 hours, 6 ECTS credits. PC certificate: ASI-290803-KSW, dated 08.09.2024.

Monograph

Zapeka I.E. Pathomorphological features of escherichia in pigs due to an excess of copper, ferrum, and cobalt in feed in the aspect of forensic veterinary examination. [Text]: monograph / I. E. Zapeka, M. V. Skrypka, I. V. Yatsenko, I. I. Panikar / Kharkiv, 2020. 192 p.
